

EPA Source Code Listingfor the Hazardous Waste Stream Report (WSR Form)

Wastes From On-going Production and Service Processes	Report on the WSR Form in Item 1b1 (Source Code)		
Description			
Stripping and acid or caustic cleaning (using caustics to remove coatings or layers from parts or assemblies) Plating and phosphating (electro- or non-electroplating or phosphating) Etching (using caustics or other methods to remove layers or partial layers) Metal forming and treatment (pickling, heat treating, punching, bending, annealing, grinding, hardening, etc.) Metal forming and coating (manufacturing, building, or maintenance) Product and by-product processing (direct flow of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Other production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes			
Plating and phosphating (electro- or non-electroplating or phosphating) Etching (using caustics or other methods to remove layers or partial layers) Metal forming and treatment (pickling, heat treating, punching, bending, annealing, grinding, hardening, etc.) Painting and coating (manufacturing, building, or maintenance) Product and by-product processing (direct flow of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Goy	G01	Dip, flush or spray rinsing (using solvents to clean or prepare parts or assemblies for further processing)	
Etching (using caustics or other methods to remove layers or partial layers) Metal forming and treatment (pickling, heat treating, punching, bending, annealing, grinding, hardening, etc.) Metal forming and coating (manufacturing, building, or maintenance) Product and by-product processing (direct flow of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Other production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes Code Description Oiscarding off-specification, out-of-date, and/or unused chemicals or products Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G24 Solvent or product distillation as part of a production process (including total	G02	Stripping and acid or caustic cleaning (using caustics to remove coatings or layers from parts or assemblies)	
Metal forming and treatment (pickling, heat treating, punching, bending, annealing, grinding, hardening, etc.) Painting and coating (manufacturing, building, or maintenance) Product and by-product processing (direct flow of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Other production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes Code Description G11 Discarding off-specification, out-of-date, and/or unused chemicals or products G12 Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons) Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landf	G03	Plating and phosphating (electro- or non-electroplating or phosphating)	
Painting and coating (manufacturing, building, or maintenance) Product and by-product processing (direct flow of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Obter production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes Obescription G11 Discarding off-specification, out-of-date, and/or unused chemicals or products G12 Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons) Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G15 Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G23 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G24 Solvent or product distillation as part of a production process (including	G04	Etching (using caustics or other methods to remove layers or partial layers)	
Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Other production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes Code Description G11 Discarding off-specification, out-of-date, and/or unused chemicals or products G12 Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons) Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G23 Vastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes	G05	Metal forming and treatment (pickling, heat treating, punching, bending, annealing, grinding, hardening, etc.)	
Removal of spent process liquids or catalysts (bulk removal of wastes from chemical manufacturing or processing, etc.) Other production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes Code Description G11 Discarding off-specification, out-of-date, and/or unused chemicals or products G12 Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons) Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G06	Painting and coating (manufacturing, building, or maintenance)	
tet.) G09 Other production or service-related processes from which the waste is a direct outflow or result Wastes From Other Intermittent Events or Processes Code Description G11 Discarding off-specification, out-of-date, and/or unused chemicals or products Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons) Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G07	Product and by-product processing (direct flow of wastes from chemical manufacturing or processing, etc.)	
Wastes From Other Intermittent Events or ProcessesCodeDescriptionG11Discarding off-specification, out-of-date, and/or unused chemicals or productsG12Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons)G13Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning)G14Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning)G15Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning)G16Oil changes and filter or battery replacement (automotive, machinery, etc.)G17Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code)G19Other one-time or intermittent processesResiduals From Pollution Control and Waste Management ProcessesCodeDescriptionG21Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.)G22Laboratory analytical wastes (used chemicals from laboratory operations)G23Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal)G24Solvent or product distillation as part of a production process (including totally enclosed treatment systems)G25Treatment, disposal, or recycling of hazardous wastesG26Leachate collection (from landfill operations or other land units)<	G08		
CodeDescriptionG11Discarding off-specification, out-of-date, and/or unused chemicals or productsG12Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons)G13Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning)G14Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning)G15Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning)G16Oil changes and filter or battery replacement (automotive, machinery, etc.)G17Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code)G19Other one-time or intermittent processesResiduals From Pollution Control and Waste Management ProcessesCodeDescriptionG21Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.)G22Laboratory analytical wastes (used chemicals from laboratory operations)G23Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal)G24Solvent or product distillation as part of a production process (including totally enclosed treatment systems)G25Treatment, disposal, or recycling of hazardous wastesG26Leachate collection (from landfill operations or other land units)	G09	Other production or service-related processes from which the waste is a direct outflow or result	
Discarding off-specification, out-of-date, and/or unused chemicals or products	Wastes From Other Intermittent Events or Processes		
Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) Oil changes and filter or battery replacement (automotive, machinery, etc.) Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	Code	Description	
Cleaning out process equipment (periodic sludge or residual removal from enclosed processes including internal scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G11	Discarding off-specification, out-of-date, and/or unused chemicals or products	
scrubbing or cleaning) Removal of tank sludge, sediments or slag (periodic sludge or residual removal from storage tanks including internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) G23 Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G12	Lagoon or sediment dragout and leachate collection (large scale operations in open pits, ponds, or lagoons)	
internal scrubbing or cleaning) Process equipment change-out or discontinuation of equipment use (final materials and residuals removal including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) G23 Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G13		
including cleaning) G16 Oil changes and filter or battery replacement (automotive, machinery, etc.) G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) G23 Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G14		
G17 Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code) G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) G23 Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G15		
G19 Other one-time or intermittent processes Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G16	Oil changes and filter or battery replacement (automotive, machinery, etc.)	
Residuals From Pollution Control and Waste Management Processes Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G17	Subpart K laboratory waste clean-out (facility must have opted into the Subpart K rule to use this source code)	
Code Description G21 Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) G23 Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G19	Other one-time or intermittent processes	
Air pollution control devices (e.g., baghouse dust ash, etc. from stack scrubbers or precipitators; vapor collection, etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	Residuals From Pollution Control and Waste Management Processes		
etc.) G22 Laboratory analytical wastes (used chemicals from laboratory operations) Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	Code	Description	
Wastewater treatment (sludge, filter cake, etc., including wastes from treatment before discharge by NPDES or POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G21		
POTW or by UIC disposal) G24 Solvent or product distillation as part of a production process (including totally enclosed treatment systems) Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G22	Laboratory analytical wastes (used chemicals from laboratory operations)	
G25 Treatment, disposal, or recycling of hazardous wastes G26 Leachate collection (from landfill operations or other land units)	G23		
G26 Leachate collection (from landfill operations or other land units)	G24	Solvent or product distillation as part of a production process (including totally enclosed treatment systems)	
	G25	Treatment, disposal, or recycling of hazardous wastes	
G27 Treatment or recovery of universal waste	G26	Leachate collection (from landfill operations or other land units)	
	G27	Treatment or recovery of universal waste	

Wastes	Wastes From Spills and Accidental Releases		
Code	Description		
G31	Accidental contamination of products, materials or containers		
G32	Cleanup of spill residues (infrequent, not routine)		
G33	Leak collection and floor sweeping (on-going, routine)		
G39	Other cleanup of current contamination (specify in comments)		
Wastes	Wastes From Remediation of Past Contamination		
Code	Description		
G41	Closure of hazardous waste management unit under RCRA		
G42	Corrective action at a solid waste management unit under RCRA		
G43	Remedial action or emergency response under Superfund		
G44	Cleanup under State or voluntary program		
G45	Cleanup of underground storage tank		
G49	Other remediation		
Wastes	Wastes Received by an LQG From VSQG Under the Control of the Same Person		
Code	Description		
G51	Hazardous wastes received by an LQG from VSQGs under the control of the same person		
Wastes	Wastes Not Physically Generated On-site		
Code	Description		
G61	Received from off-site for storage/bulking and transfer off-site for treatment or disposal		
G62	Hazardous waste received from a site located in a foreign country (other than a U.S. territory or protectorate)		
G76	Evaluated hazardous waste pharmaceuticals accumulated by a reverse distributor		
G77	Airbag waste received from airbag waste handlers exempted under 40 CFR 261.7(j) prior to arrival at the airbag collection facility or designated facility
